

## **6V 80W Solar Photovoltaic**

## Overview

---

Is the 80W solar panel waterproof?

The 80W solar panel is waterproof with the IP68 rating, however note the port is not waterproof. Q: Is the glass on the back of the 80W board dangerous?

The solar panel glass is fitted with a special structure design, with no glass slag generated - rest assured the product is extremely safe. Q: Why is there no functional logo on the silicone cover?

.

What is an 80 watt solar module?

An 80 watt solar module is a high efficiency monocrystalline solar module, as in the GP-PV-80M Solar Module from Go Power!, which provides outstanding performance and cost-effective solar power for residential, commercial and industrial applications.

What are the different solar panel voltages?

Namely, we have to come to terms with the fact that there are several different voltages we are using for solar panels (don't worry, all of these make sense, we'll explain it). These solar panel voltages include: Nominal Voltage. This is your typical voltage we put on solar panels; ranging from 12V, 20V, 24V, and 32V solar panels.

What is voltage output from a solar panel?

Voltage output directly from solar panels can be significantly higher than the voltage from the controller to the battery. Maximum Power Voltage (Vmp). This is the voltage when the solar panel produces its maximum power output; we have the maximum power voltage and current here. Here is the setup of a solar panel:.

Does the 80W solar panel have a reflective carrying case?

The solar panel 80W comes with a reflective carrying case. It features double-sided power generation through the reflective optical fiber, and reflective angle can be adjusted, through the sticking position of the magic tape of the carrying case. Q: Can I use the 80W solar panel to recharge other Jackery models?

.

Are 80W solar panels compatible with Jackery power stations?

Each time the temperature rises by 1°C, the conversion efficiency is still 28.5% higher than alternatives on the market. The 80W Solar Panels are fully compatible with all Jackery Power Stations, providing first-rate charging options with up to 12pcs of 80W solar panels charged at the same time. You can charge in any way you want.
