

# ABC double-glass modules

## Overview

---

How many Aiko bifacial double-glass modules are there?

- Setup: 12 AIKO ABC bifacial double-glass modules (630W each) and 14 TOPCon modules (590W each) installed on the roof of the Ningxia Electric Power Design Institute Co.,Ltd. Both types of modules were fixed at the same angle and partially shaded at certain times of the day.

What is a double glass photovoltaic module?

With efficiencies of up to 23.8 % and a power range of 455 to 475 Wp, it sets new standards in photovoltaics. The robust double glass construction offers additional protection against environmental influences and allows the modules to work reliably even under extreme conditions.

Why should you choose Aiko's ABC modules?

- Performance: ABC modules achieved a 2,6% higher power generation per kilowatt. As more data from worldwide test sites becomes available, AIKO's ABC modules consistently demonstrate superior power output compared to market counterparts.

## ABC double-glass modules
