

# **Are there any energy storage battery companies in the Netherlands**

## Overview

---

Energy storage companies in Netherlands are focused on providing sustainable and renewable energy solutions for the country. These companies offer a range of energy storage solutions, including batteries, pumped hydro storage, compressed air energy storage, and flywheels. Where is the Netherlands' largest stand-alone battery energy storage system located?

Dispatch, a Dutch battery developer, is going to construct the Netherlands' largest stand-alone Battery Energy Storage System (BESS) in the port area of Dordrecht. The system will be used for grid stabilization by storing excess energy from renewable sources. The battery, consisting of 144 Fluence cubes will be located on a 6000m<sup>2</sup> site.

Do Dutch home battery purchases keep driving battery storage installations?

Dutch home battery purchases keep driving battery storage installations. According to Dutch New Energy Research's Nationaal Smart Storage Trendrapport 24/25, 410 MWh of new battery capacity was installed in the Netherlands in 2023 – 1 MWh is enough to power a couple hundred homes for a day.

How many home batteries are there in the Netherlands?

56% of the total number of batteries purchased in the Netherlands last year (13,600 of 24,400) were small home batteries—less than 5 kWh—followed by bigger home batteries, with up to 20 kWh capacity. With battery sales ramping up worldwide, the Netherlands, too, will add more storage.

How much battery storage is installed in the Netherlands?

The latest Trendrapport figures show how only 1.7% of the European battery storage is installed in the Netherlands. With the average battery storage capacity per capita in Europe being 48.4 Wh, the Netherlands is below the average with 34.9 Wh per person.

How many energy storage facilities are there in the Netherlands?

The vast majority of the 20 MW of installed energy storage capacity in the Netherlands is spread over just three facilities: the Netherlands Advancion Energy Storage Array (10 MW Li-ion), the Amsterdam ArenA (4 MW Li-ion), and the Bonaire Wind-Diesel Hybrid project (3 MW Ni-Cad battery).

Is there a business case for energy storage in the Netherlands?

As mentioned above, there have been two major barriers, or stumbling blocks, to the business case for energy storage in the Netherlands to date. As of the beginning of 2022, one of those has been eliminated, to the great relief of GIGA Storage and others in the industry.
