

Container lithium battery factory

Overview

What is a lithium battery energy storage container system?

lithium battery energy storage container system mainly used in large-scale commercial and industrial energy storage applications. We offer OEM/ODM solutions with our 15 years in lithium battery industry.

Why should you choose a lithium-ion battery storage container?

Flexibility and scalability: Compared with traditional energy storage power stations, lithium-ion battery storage containers can be transported by sea and land, no need to be installed in one fixed place and subject to geographical restrictions.

What is a containerized energy storage system?

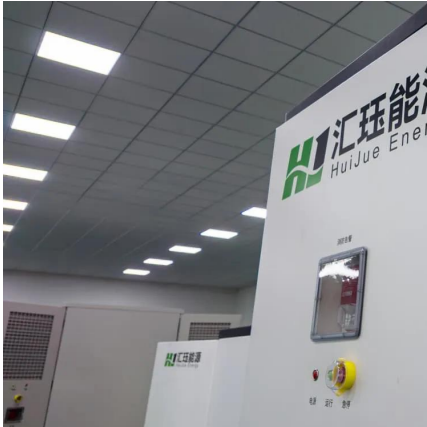

The Containerized energy storage system refers to large lithium energy storage systems installed in sturdy, portable shipping containers, which usually range from 5ft, 10ft, 20ft, and 40ft, and mainly focus on 50Kwh to 10Mwh.

What is a container enclosure body with a battery rack?

1. Container Enclosure Body with Battery Rack This is our foundation-level BESS solution, designed with flexibility in mind. It features a high-quality container enclosure pre-installed with a battery rack, allowing clients to integrate their own battery packs, cooling systems, fire suppression systems, and other components.
