

Dedicated solar on-site energy brand

Overview

How many countries does a solar energy company operate in?

The Group designs, builds, operates, maintains and finances these solutions in more than 18 countries, supplying its customers with renewable energy produced on their sites, in the form of long-term electricity purchase contracts.

Is solar photovoltaic electricity a viable energy source?

The cost of solar photovoltaic electricity has been divided by 10 in the last 12 years, making it one of the most competitive energy sources in the world today. It is now possible to dispose one's own autonomous energy ecosystems that can continuously meet up to 100% of one's own electricity needs.

What is photovoltaic solar energy?

Photovoltaic solar energy meets the challenges of decarbonization, optimizing energy costs and increasing energy independence.

Dedicated solar on-site energy brand

Best 11 Solar Panel Brands
