

Finnish solar system home manufacturer

Overview

Who are the best solar energy companies in Finland?

Fortum: Electricity company. Turn key solar energy systems. Full service chain from site assessment to system delivery and warranties. Green Energy Finland Oy: Turn key solution provider for renewable energy systems. Helen Oy: Electricity company. Construction and operating solar PV-plants.

Who is solar Finland?

The story of Solar Finland started in 1978 when the founders begun importing solar energy components to Finland. At first while the market was quite small, products were sold only to be used in summer cottages, boats, and mobile homes.

Does Finland have solar power?

There is plenty of solar energy available in Finland, and solar power is predicted to be one of the lowest-cost electricity production methods in the coming years.

Why should you choose solar Finland?

Solar Finland and its subsidiaries with strong long-term background are experts in all aspects of solar energy. Our extensive know-how and experience of over 40 years make it possible to develop in different areas making our products and services competitive in the solar energy markets both domestically and abroad.

What are the different types of solar energy companies?

Pistoke RES Oy: Design, retail and installation of solar PV and heat systems. Kerabit aurinkosähkö: Turn-key service provider in small and medium scale on-grid systems. Ruukki Construction Oy: Solar energy systems integrated into roofing solutions and building materials. SaloSolar Oy: Producer of solar PV panels.

Where should I buy solar panels?

We recommend acquiring your panels from a reliable company that is sure to remain in business for the entire lifecycle of your solar power system. A good salesperson will answer any use-phase questions you may have, handle your warranty issues, if necessary, and enable you to expand your system and add new products to it.
