

# Kuwait energy storage exports

## Overview

---

Does Kuwait have energy supply concerns?

CHAPTER 3 HIGHLIGHTS |57 • In addition to energy demand concerns (gas), Kuwait also has energy supply concerns (oil). Under various assumptions, oil demand would drop by as much as 40 percent from the current demand level as early as 2020s and as late as 2040s.

Does Kuwait's economy depend on oil exports?

This demonstrates that Kuwait's economy is highly dependent on oil exports and reflects the country's economic performance is closely linked to the fluctuations in global oil prices and demand. Figure 1.12|Oil revenues and gross domestic product (PPP \$2015) of the GCC countries in 2019.

How does Kuwait's natural gas supply impact global oil supplies?

Furthermore, Kuwait faces increasing competition from unconventional oil supplies and non-OPEC suppliers, who have significant production potential, especially over the medium-term, could impact global oil supplies. 52| KUWAIT ENERGY OUTLOOK Kuwait continues to increase its use of natural gas.

Will primary energy grow in Kuwait?

In the BAU case, primary energy to meet local demand will grow at a steady 1.3 percent over the Outlook period. Total primary energy in Kuwait is projected to grow from approximately 31 to 40 million tonnes of oil equivalent (Mtoe). The buildings model of Kuwait incorporates demand from the residential and service sectors.

How much energy does Kuwait need?

Total primary energy in Kuwait is projected to grow from approximately 31 to 40 million tonnes of oil equivalent (Mtoe). The buildings model of Kuwait incorporates demand from the residential and service sectors. Overall energy demand in buildings in Kuwait grows at a rate of 1.4 percent in a BAU case,

with electricity fueling most of this demand.

How much oil did Kuwait Export in 2021?

Kuwait exported 1,740 thousand barrels per day and 604 thousand barrels per day of oil- derived products in 2021. Compared to 2020, crude oil production fell by approximately 1 percent.
