

# **Laos communication base station wind power equipment**

## Overview

---

What is the largest wind power project in Laos?

The project, a 1,200 MW wind power project in the Lako Focus Area, Sepon District, Savannakhet Province, marks the largest wind power development in Laos to date and is expected to generate enough electricity to power both domestic needs and contribute to the region's energy security.

When will Laos' wind farm be operational?

The wind farm is expected to be operational by early 2026, significantly boosting Laos' renewable energy capacity and supporting its goal of achieving renewable energy targets by 2030.

When will Power Plants be returned to the Lao Government?

It will be returned to the Lao government after approximately 25 to 30 years of operation. Also, at this time, it will be overhauled and returned. Power plants for domestic supply are projects run by EDL (Electricite Du Laos), EDL-Gen (EDL-Generation Public Company), or IPP, sell power to EDL, the domestic power transmission and.

What is Lao CERT?

The organization called Lao CERT by the state. Law on Electronic Data Protection law that stipulates principles, rules, and methods regarding the operation, monitoring, and activities of electronic data protection for the purpose of protecting the rights and interests of the country, c.

Who is the Deputy Minister of planning & investment in Laos?

Dr. Sthabandith Insisiengmay, Deputy Minister of Planning and Investment for the Lao government (right), and Mr. Sengsack Sayarath, Managing Director of SVARE (left).

What is laocert (Lao Computer Emergency Response Center)?

LaoCERT) was established under the Lao Computer Emergency Response Center (LaoCERT).LaoCERT is a technical unit with a status equivalent to a department within the Ministry of Posts and Telecommunications, and plays the role of the main department for preventing and resolving computer system emergencies within the Mi

## Laos communication base station wind power equipment
