

Maldives outdoor power battery assembly

Overview

What is the Maldives solar project?

The Maldives solar project is a 36 MW solar power project and 50 MWh of battery energy storage solutions development across various islands in the Maldives. It also includes grid modernization for the integration of variable renewable energy with the grid, which will be financed under the proposed AIIB loan.

How can the Maldives achieve “carbon neutrality” by 2030?

While ASPIRE project addresses the need to increase PV generation in Maldives through private sector investment, Maldives envisions an ambitious goal of “carbon neutrality by 2030” along with an immediate target for 2023 to increase the share of renewable energy by 20% compared to 2018 levels.

Will the Maldives project affect indigenous peoples?

There is no evidence suggesting the presence of Indigenous Peoples in the Maldives. Therefore, the project will not have an impact on Indigenous Peoples.
