

# **Mobile outdoor power supply can store 5 kWh of electricity**

## Overview

---

Can a portable power station be used as an uninterruptible power supply?

Yes, a portable power station can be used as an uninterruptible power supply. Many portable power stations come with UPS features, like automatic switchover when power loss is detected.

Why should you buy a portable power station?

Bring big backup power with you with these expert-recommended portable power stations, which can store enough power to charge electronics, appliances, and more.

How much power can a portable power station hold?

While a particular power station might claim to hold 1,000 watt hours, the actual amount of usable power you can get out of it is a different story. The best portable power stations also have an onboard computer that shows you how much energy is left in your unit, as well as how much power it's currently using.

Are portable power stations suitable for camping?

Almost all compact portable power stations will be suitable for camping, but I rather like the Bluetti Handsfree 2 for this role - mostly because many of them are big, boxy, unwieldy units that take up a fair amount of space.

What are the best portable power stations?

To help you decide, I tested the efficiency, in a variety of scenarios, of the best portable power stations from Jackery, Oupes, EcoFlow, Anker, Goal Zero, Greccell, Bluetti, Dakota Lithium, Lion Energy, Vtoman, and Oupes. ↓ [Jump to the Rest of the Field](#) ↓ [What to Know Before Purchasing a Portable Power Station](#).

What are the performance metrics for portable power stations?

Currently, we look at two main performance metrics for portable power stations: charge time and discharge capacity. Every company that sells portable power stations provides the expected number of watt-hours its products are supposed to last. That can vary from as low as 240 watt hours to as many as 2,000 watt hours for a larger power station.

## Mobile outdoor power supply can store 5 kWh of electricity
