

Mobile power box safety

Overview

How do you protect workers from mobile equipment hazard?

Ensure that all workers receive proper training on how to either operate the mobile equipment or work alongside one. Ensure that all workers are aware of the potential hazards on-site. Establish “safety zones” between the operating mobile equipment and workers/public.

How do you ensure a safe operation of mobile equipment?

Establish “safety zones” between the operating mobile equipment and workers/public. Ensure that no one approaches the mobile equipment until it has stopped, and the operator has indicated that it is safe. Operators should perform a pre-operational inspection following manufacturers recommendations before beginning work.

How can a mobile equipment operator ensure safety?

Ensure that all workers are aware of the potential hazards on-site. Establish “safety zones” between the operating mobile equipment and workers/public. Ensure that no one approaches the mobile equipment until it has stopped, and the operator has indicated that it is safe.

Is powered mobile equipment safe on a construction site?

Powered mobile equipment can be a valuable tool on a construction site, but can also pose a risk to nearby workers, traffic, or pedestrians — especially if the operator can’t see them. This toolbox talk is designed to help employers ensure that all workers are safe on site when powered mobile equipment is being used.

What are the safety precautions when working with mobile equipment?

Keep in eye contact with the operator when working near moving machinery or equipment. • Poor sight lines and visibility issues are a risk when working with mobile equipment. Be mindful of the dimensions of the piece of

equipment and where the operator is positioned on the equipment.

What is a powered mobile equipment toolbox talk?

This toolbox talk is designed to help employers ensure that all workers are safe on site when powered mobile equipment is being used. All guidelines can be referenced in the Workplace Safety and Health Regulation. See Part 22 for powered mobile equipment and Part 25 when working in the vicinity of overhead powerlines.
