

Papua New Guinea cold solar power generation for home use

Overview

Will solar power change lives in PNG?

In a nation where, at this time, only 20% of people have access to reliable electricity, this scheme would change lives. Solar energy plays a big part in that transition and aids in bridging PNG's healthcare inequality gap and fighting gender-based poverty. According to the World Bank, about 85% of PNG's citizens live in rural communities.

Does Papua New Guinea squander the Coral Sea cable system?

It is critical Papua New Guinea does not squander the opportunities provided by the Coral Sea Cable System, says the Chair of the Business Council of PNG's Internet Working Group, Sundar Ramamurthy.

How can mini-solar grids improve the quality of life?

During the development time of larger projects, mini-solar grids can provide easier access for impoverished regions to improve the quality of life of the people who inhabit them. – Melissa Harper-France Melissa is based in Saint Paul, MN, USA and focuses on Technology and Solutions for The Borgen Project.

Papua New Guinea cold solar power generation for home use
