

Polish energy storage lithium battery assembly company

Overview

Where is Lyten battery energy storage system made?

The 25,000-sq-m battery energy storage system manufacturing and R&D facility is the largest facility of its kind in Europe. Lyten's newly acquired battery energy storage systems manufacturing facility features state-of-the-art robotics and automation. Lyten acquired the facility, in Gdansk, Poland, from Northvolt.

Where does Lyten manufacture lithium-sulfur batteries?

San Jose, CA & Luxembourg - July 1, 2025 - (BUSINESS WIRE) - Lyten, the supermaterial applications company and global leader in lithium-sulfur batteries, announced today the acquisition of Northvolt's Dwa ESS operations in Gdansk, Poland, a 25,000 square meter (270,000 sq ft) battery energy storage systems (BESS) manufacturing and R&D facility.

Where did Lyten buy Dwa energy storage system?

Lyten acquired the facility, in Gdansk, Poland, from Northvolt. It is Europe's largest energy storage systems manufacturing facility. (Source: Lyten) California-based Lyten, a lithium-sulfur battery specialist, has acquired Northvolt's Dwa energy storage system (ESS) operations in Gdansk, Poland, the company said July 1.

Where does POSCO PLSC recycle lithium-ion batteries?

In Bukowice, near Brzeg Dolny, POSCO PLSC operates a lithium-ion battery recycling plant in collaboration with SungEel HiTech. Dedicated to processing waste from battery factories and using Li-ion batteries, POSCO PLSC significantly contributes to sustainable battery production.

Will Lyten use Gdansk to make lithium-sulfur batteries?

Announcing the purchase on Tuesday, Lyten said it will use the Gdansk site - which can produce 6 GWh per year of BESS - to make products including its

ultra-lightweight lithium-sulfur batteries.

Will Lyten restart production in Gdansk?

The Californian startup has announced its intent to ‘immediately’ restart production in Gdansk and will use the fab to make its lithium-sulfur products. US-based lithium sulfur battery maker Lyten has announced plans to restart production at Europe’s largest battery energy storage system (BESS) production facility, in Poland.
