

# Sierra Leone Solar Photovoltaic Panel Investment

## Overview

---

On the sidelines of the 28th United Nations Conference of the Parties on Climate Change (COP28), which ends this Tuesday 12 December 2023 in Dubai, four investment companies have announced a \$52 million financing package for four solar photovoltaic power plants in Sierra Leone. What's going on with a 50MW solar project in Sierra Leone?

Three Development Finance Institutions and a renewable fund manager have announced a co-investment for a 50MW solar power project in Sierra Leone. Three Development Finance Institutions and a renewable fund manager have announced a co-investment of more than \$52 million for Planet Solar, a greenfield 50MW solar power project in Sierra Leone.

How is Sierra Leone advancing its energy future?

“Sierra Leone is advancing its energy future through innovative partnerships and sustainable solutions. With the Results-Based Financing mechanism, we are not just powering homes but empowering communities and driving economic growth.

How has Sierra Leone developed energy solutions?

The Government of Sierra Leone has taken a strategic approach to developing energy solutions by establishing effective policies and regulations that enable private sector participation.

Why is co-investment important in Sierra Leone?

The co-investment enables the development of a critical project that stimulates investment in renewable energy – responding to the urgent need for access to clean, affordable and stable power. Currently, only 23% of the population in Sierra Leone has access to electricity.

Who is implementing a multi-partner project in Sierra Leone?

Under this multi-partner scheme, the United Nations Office for Project

Services, (UNOPS) and Sustainable Energy for ALL (SEforALL) are implementing partners while the initiative will be funded by the EU under the EUR 50 million Transformational Energy Access for Sierra Leone financing agreement with the Government of Sierra Leone.

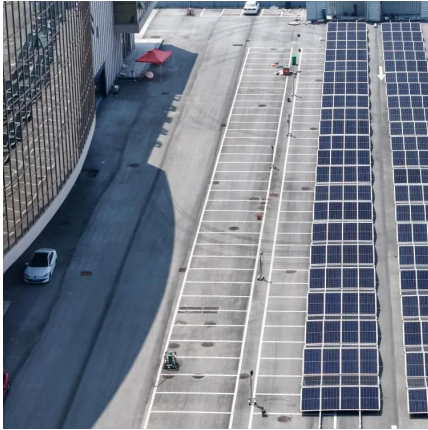

Does power Leone have a solar mini-grid?

Power Leone continues to supply modern energy reliably in all three locations. “ The use of Results Based Financing for the roll-out of solar mini-grids is an important step for Sierra Leone. As the RBF mechanism is scalable, it has the potential to lead to a palpable acceleration in rural electrification.
