

# Solar panel processing factory in Sao Tome and Principe

## Overview

---

Where will solar power plants be installed in so Tomé?

The company will collaborate with the public utility Power and Water Company (EMAE) to install solar power plants across the country. The first phase of the program will include the installation of solar PV plants at the São Tomé international airport, as well as on the island of Príncipe, with capacities of 1.1 kW and 300 kW, respectively.

Are there any studies on solar power potential in Sao Tome & Principe?

2. Solar PV:As per the publication “Emission Reduction Profile: Sao Tome and Principe”, June 2013” prepared by RISO with the support of ACP-MEA & UNFCCC, there are, to date, “no official studies on the exact solar power potential: therefore, further calculations of the emissions reduction potential can be hazardous”.

Will Sao Tome & Principe get a 2 MW solar project?

The island nation of Sao Tome and Principe switched on the initial phase of its first 2 MW solar project in August. Construction of 1.4 MW of PV capacity is now underway at two airports, and developers plan to install a total of 1.7 MW by 2023.

How is Sao Tome & Principe generating electricity?

Medium The Government of Sao Tome and Principe is strongly motivated to increase and diversify its generation capacity through mini/smallhydropower plants and is driven by its plans to increase access to electricity services to the population.

When will a 300 kW power plant be installed in Sao Tome?

Cleanwatts told pv magazine that it started developing 1.1 MW at Sao Tome airport and 300 kWp at Principe airport in August. It expects to complete the arrays by the end of this year. Another 300 kWp will be installed next year at

other communities in Sao Tome.

How long does it take to build an airport solar plant?

According to Basilio Simoes, Cleanwatts Co-Founder and Vice Chairman, the airport solar plant would take less than three months and whereas the bigger plant may take up to two years to build.
