

Sweden site energy battery cabinet 7MWh

Overview

When will a battery energy storage system be built in Sweden?

Construction has begun on Sweden's largest Battery Energy Storage System (BESS) undertaken by Neoen, an Independent Power Producer and Nidec, a system integrator. The project has been projected to come online in early 2025. Neoen is headquartered in Paris.

What is the largest battery energy storage system in Sweden?

Named Isbillen Power Reserve, the 1-hour duration Battery Energy Storage System project will be the largest in Sweden and the largest in the Nordics by megawatt (MW) power. The largest by megawatt-hours energy capacity in the Nordics will be a 2-hour project in Finland that Neoen recently started building.

How many wind turbines does Sweden have?

Once completed, it will consist of up to 1,101 wind turbines, producing up to 12 TWh per year. That's around 8% of Sweden's total electricity generation. As the global aviation sector faces increasing demands to get on a sustainable flightpath, one airport in northern Sweden has gained a head start.
