

# **What is the outdoor power supply standard in Turkmenistan**

## Overview

---

The voltage in Turkmenistan is 230 volts and the frequency is 50 Hz. Most wall outlets in Turkmenistan are ungrounded (type C). Turkmenistan has standardized on type C and type F sockets and plugs. Type E plugs can also be used thanks to their compatibility with type F sockets.

## What is the outdoor power supply standard in Turkmenistan

---

### Standard and Common Voltage Levels in the US and ...

480V 480 volts is a high voltage commonly used in the US for commercial and industrial applications. This voltage is typically used to power large equipment, ...
